

France Stakeholder's Map

This map shows the partners of the two French organizations, FAL19 and LENA, involved in the Step By Step project. This mapping is essential as it helps introduce and include key stakeholders from the very beginning of the project, mainly educational specialists working within third-sector organizations and networks. Most of these partners were consulted during the focus group regarding the results and objectives to be achieved in the overall project. They will also be invited to follow the project and, if possible, participate in key moments such as trainings and multiplier events.

Here are the partners of FAL 19 for the Step By Step project :

Partners	Type of structure	Rôles or activities
Maison de l'eau et de la pêche (MEP 19) https://www.peche19.fr/	Private/ Association	Maison de l'Eau et de la Pêche is an association whose mission is to produce and share high-quality knowledge about aquatic environments for both users and managers of the territory.
Education nationale https://www.ac-limoges.fr/circonscription-tulle-dordogne-121700	Public	Support educational teams in the evolution of their professional practices (teaching programs, class, cycle, or school projects, etc.) in the department of Corrèze and neighboring departments.
